

Jan-Stix
...let's eat better!

Jan-Stix are chopsticks for the 21st century. They make eating fun!

Jan-Stix are not just for Asian food. Use them for salads, stews, seafood, Mediterranean dishes, sliced fruit, fondue, "finger food," etc.

Just grasp and squeeze the egg-shaped, spring-loaded handles. **Jan-Stix** can be held with either hand, in the fingers or in the palm, in whatever way feels comfortable for the diner. The textured handle is easy to hold, and the raised nubs on the inner tip surfaces hold even the most slippery foods. With **Jan-Stix** you can pluck a selected morsel from above, or scoop up beans, rice, grains or small vegetables from the side.

The machine-washable, sanitary, red, 100% linen Travel Sleeve (pictured at left, purchased separately) allows you to use **Jan-Stix** at your favorite restaurant without soiling clothes or purse.

Jan-Stix are made entirely in the USA from globally sourced raw material, and are fully patented.

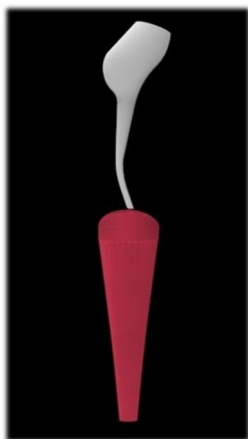

Visit our website for additional information, or send any inquiries to the email address listed below.

Important Note: **Jan-Stix** are made from FDA-approved thermoplastic and stainless steel. They are dishwasher-safe when placed in **top rack**, away from heated drying elements.

Do not use them for stir-frying.

When used with accepted dishwashing detergents **Jan-Stix** will give you many years of enjoyable dining. However, caustic, abrasive, or solvent-based cleaners can mar the finish.

Not recommended for children under 8-years old.
